Radiation Oncology Conference Room

44035 Riverside Parkway, Suite 100

No rule book. No time frame. No judgement. Grief is as individual as a fingerprint. It's a normal, healthy and healing emotion. By sharing stories of the loss, the emotions around it, and ways of handling the challenges we face, group members can begin to integrate the loss of a loved one into their lives.

Discussion topics include:

- the process of grieving
- accepting and expressing one's emotions
- dealing with children, family and friends
- role and life style changes
- coping with special dates
- community resources

Facilitators: Karen Archer, MSW, LCSW and Elise Schneider, MSW, LCSW
